

Napovedujemo:

Mednarodni simpozij o restavriranju filmske dediščine prvič v Ljubljani

11. in 12. aprila bo v Ljubljani, natančneje v **prostorih Slovenske kinoteke**, potekal mednarodni simpozij o restavriranju filmske dediščine.

Gre za odziv strokovne javnosti na vse bolj nujne težnje po ohranitvi slovenske filmske dediščine, na pomanjkanje enotnih etičnih normativov in potrebo po vzpostavitvi infrastrukture za restavracijo.

Dan pred začetkom simpozija – 10. april – bo namenjen ogledu restavriranih filmskih kopij, v torek, 11. aprila, in sredo, 12. aprila, pa se bodo ves dan odvijala predavanja o aktualnih temah s področja etičnega, tehničnega in organizacijskega vidika restavracije filmov, ki jih bodo izvedli priznani strokovnjaki.

Natančen program simpozija in filmski program bomo objavili naknadno, na spletnih straneh vpletenih institucij in v sporočilih za javnost.

Announcement:

Symposium on the Restoration of Film Heritage – for the first time in Ljubljana

Ljubljana – more accurately, the **Slovenian Cinematheque** – will host the Symposium on the Restoration of Film Heritage on **11 and 12 April 2017**.

The symposium is a direct response to the lack of unified ethical standards and the need to establish an infrastructure for the restoration in increasingly urgent efforts to preserve the Slovenian film heritage.

The day before the symposium – 10 April – will be devoted to screenings of restored film copies. Tuesday, 11 April, and Wednesday, 12 April, are reserved for several interesting lectures, carried out by experts, who will be speaking on current topics from an ethical, technical and organizational point of view of the restoration.

A detailed programme of the symposium and the film programme will be announced later, on the website of the institutions involved and in press releases.
